How to do it

Sit somewhere quiet, away from the game, and hold the phone about a foot away. Ask one question, then let the silence sit: the good part usually comes after a pause. "What happened next?" works on almost every answer. Skip any question you like.

Scan a card's code (or open cunatcreatives.com/wholestory/app) and Wholestory shows the questions one at a time, records their voice and writes the captions. Free. Their stories go on their own timeline, and you choose who hears them.
